EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Eddie E. Scott on 12/15/2004.

The application has been amended as follows:

- a. Claim 1, line 6, the term 'containing' has been replaced with --**"placing"**--, and the phrase 'thereby providing contained optically encoded microbeads' has been replaced with --**"into a container"**--.
- b. Claim 41, line 6, the term 'containing' has been replaced with --**"placing"**--, and the phrase 'thereby providing contained optically encoded microbeads' has been replaced with --**"into a container"**--.

2. The following is an examiner's statement of reasons for allowance:

The primary reason for allowance of the claims is that the claimed method for detection and measurement of a targeted biological sample includes optically encoded microbead that comprises both a capture ligand and bioagent-specific antibody. This limitation is not taught or fairly suggested by the cited prior arts of record. Applicant's arguments regarding the rejections under 35 U.S.C. 112, second paragraph, are persuasive and thus the rejections under 35 U.S.C. 112, second paragraph, are withdrawn.
